

Stock Bowman (KLOU) airfield in FSX
Airport Layout as of 2002
Runway 32/14 vs 33/15
No ATIS available

Custom Bowman (KLOU) airfield in FSX
Airport Layout as of 2014
Runway 33/15 like should be
Taxiways designated like should be
ATIS is available!

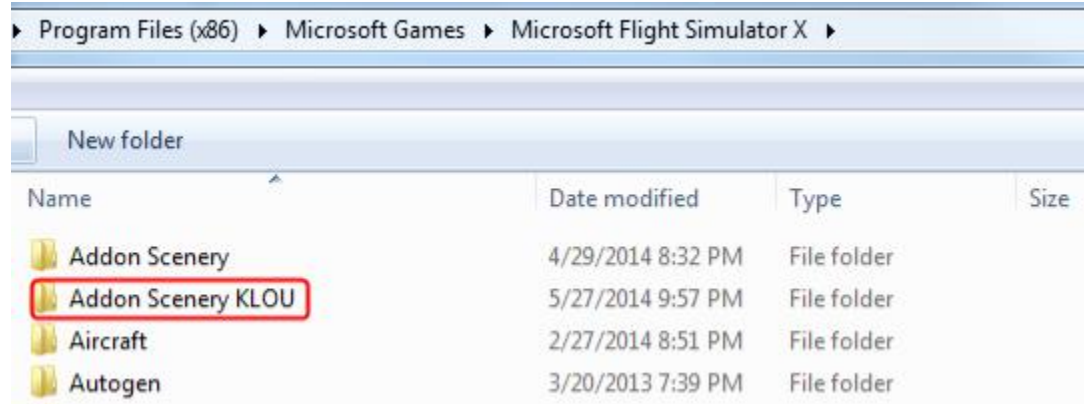

Installing the scenery

Download the three zip files

- addon_scenery_klou.zip
- addon_scenery_klou.z01
- addon_scenery_klou.z02

Find your **Microsoft Flight Simulator X** folder, typically c:\program files (x86)\Microsoft Games

Extract the .zip file, and all three parts will extract together into “Addon Scenery KLOU”

Launch FSX, and add the new Scenery folder to the library. You can toggle it on/off as desired.

That's it, you'll have the new scenery at airport, and Kaden Tower and other visual landmarks. Enjoy!
